* NKT updated this product to K50-060-70 since 2021. The outer diameter of the old product (K50-060-00) and the new one (K50-060-70) is different!
NKT has a new fiber available since 2023: K60-060-PM.

** TUB-1.8x7-0.155 fits HC-920: K50-060-00. If your HC-920 is K50-060-70, the order name of this component should be TUB-1.8x7-0.125. The 3D models for both components are on GitHub now. “33-GlassFlange” is TUB-1.8x7-0.155, “33-GlassFlange-for new HC-920” is for TUB-1.8x7-0.125.

*** MRA12-P01 for the new K50-060-PM was replaced by MRA12-E03

**** A lighter version (less 125mg) of this objective is available with ordering name: D0309.

Note on the 3D Model & 2D Drawings connected to the Machining & Price List above:

In the attached files are the 3D drawings in STEP format that can be opened in multiple programs where three-dimensional data is represented. These 3D models are available for all the components of the MINI2P platform (both in-house and items bought). However, the 2D drawings given in DWG format are only for home-made components, whereas a link is provided to the 2D drawings of all the other bought components, which are accessible on the supplier's website.
