125	Thorlabs	purchase	Quick-connect goniometers	XRNG2/M		2
126	LabMaker	purchase	Sacrificial connector v1 6-position connector with flex PCB	<u>LabMaker</u>		1
127	LabMaker	purchase	Scope cable harness v1 (assembled, replacing items 47-50)	<u>LabMaker</u>		1
128	LabMaker	purchase	Coupling box v1 (Mounted with all optical components)	<u>LabMaker</u>		4
129	Spark Laser	purchase	NEW! ALCOR 920-MINI2P laser «Plug and Play» with coupled fiber	ALCOR 920-Mini2P		

<sup>\*</sup> NKT updated this product to K50-060-70 since 2021. The outer diameter of the old product (K50-060-00) and the new one (K50-060-70) is different! NKT has a new fiber available since 2023: K60-060-PM (in protocols referred as HC-920-PM).

\*\*\* MRA12-P01 for the new K50-060-PM was replaced by MRA12-E03

\*\*\*\* A lighter version (less 125mg) of this objective is available with ordering name: D0309.

Note on the 3D Model & 2D Drawings connected to the Machining & Price List above:

In the attached files are the 3D drawings in STEP format that can be opened in multiple programs where three-dimensional data is represented. These 3D models are available for all the components of the MINI2P platform (both in-house and items bought). However, the 2D drawings given in DWG format are only for home-made components, whereas a link is provided to the 2D drawings of all the other bought components, which are accessible on the supplier's website.

<sup>\*\*</sup> TUB-1.8x7-0.155 fits HC-920: K50-060-00. If your HC-920 is K50-060-70, the order name of this component should be TUB-1.8x6.5-0.127. The 3D models for both components are on GitHub now. "33-GlassFlange" is TUB-1.8x7-0.155, "33-GlassFlange-for new HC-920" is for TUB-1.8x6.5-0.127.
